[Verso 1]
I'm smoking while I'm runnin' on my treadmill

But I'm coming up roses
Could it be that I fell for another loser?

I'm crying while I'm gunnin'
Making love while I'm making good money

Sobbin' in my cup of coffee
Because I fell for another loser

[Pre-Refrão 1]
Get that cigarette smoke out of my face

You've been wasting my time
While you're taking what's mine, with the things that you're doing

Talk that talk, well now they all know your name

And there's no coming back from the place that you came

Baby, don't do it

[Refrão]
'Cause you got me in my feeeeeeeelings (got me feeling so much right now)

Talking in my sleeeeeeep aaaagain (I'm making love songs all night)

Drown out all our screeeeeeaaammung (Got me feeling so crazy right now)

Who's doper than this bitch?

Who's free-er than me?

You wanna make the switch'

Be my guest, baby
I'm feeeeeeeeling all my fucking feeeeeeeelings

[Verso 2]
I'm smoking while I'm running

This town and you better believe it honey

I'm laughing as I'm taking no prisoners

And taking down names
I'm crying while I'm gunning

In the smoke they can hear me coming

If you were me, and I was you
I'd get out of my way

[Ponte]
Got me up in this place right now

Making no sense at all

Got me up in this place right now,

Against the wall

Got me feeling so blue

Making no sense at all

Gotta leave right now
