Bb Cm Eb
Honey on the vine
                                                                                                                                                                                                                                                                                                                          Californ-i-a, homeland of the Gods
School kid dreams came true
                                                                                                                                                                                                                                                                                                                         Bb Cm
Once I found my way
Then passed in the night
                                                                                                                                                                                                                                                                                                                                                                Eb
                                                                                                                                                                                                                                                                                                                          But now I am lost
         Bb
I used to dream about people like you
```

Now I don?t know why Acordes
