**C**

Ray, ray, ray

Raise me up...

It's the voodoo, mississippi south  
69 million stars  
Birds are flying out of my mouth  
Spirits creeping in my yard

Hold my head, it's tilting back  
Something dancing me around  
Putting crystals on my neck  
Lifting my feet off the ground

Ray, ray, ray

Raise me up

**Em C**

Oh, see, what you've done

Oh, me, just what i'm talking about

Oh, see, what you've done

Ohh, me, it's what i'm talking bout

Pick me up in a pickup truck  
Roll down, you've got it going on  
Lemme talk on your cb, what?  
Lemme play with your new shotgun

Ray, ray, ray

Raise me up
