

Last Dinosaurs - Forget About

tom:

Intro: ^{E7} ^D ^A
^{E7} ^D ^A

[Primeira Parte]

^D ^A
There's a certain kind of way
I know that you and I could be
But I should probably tell you
In advance that I'm sorry
I'm afraid that things are changing
I don't know if I can face it
I'm thinking about a time
when we were only 17
We wouldn't ever lie about
the things we were feeling
Is it me that's getting colder?
Maybe I don't wanna know that

[Refrão]

^{E7}
All this time
My head and heart were out of sync
But I know that
The ship is slowly sailing

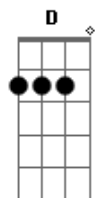

^{E7}
Out of sight
I try to swim my way against
the changing tide
The coast is only fading

(^{E7} ^D ^A)

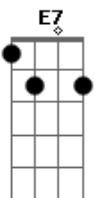

[Pré-Refrão]

^D ^A ^D
Whatever comes to mind is just my callow memory
If I was any more than just a wandering folly
I could see that I'm a simple man
Too much thinking for my heart
Oh no, don't go
I'll give you everything you
