

Last Lover - Let Me Live

Tom: C

Intro: C F
C F

I can touch the clouds of heaven when I think
I can see a chance where only sees the need

Why have guilt weighing on my back
If forgiveness and freedom are under my control?

Let me live, not knowing how tomorrow will be
You can let me live
I don't know what will be, but let me live

How many things I've lost for not believe in me
Maybe today could be living like a king

How many times I lost my faith
If all I needed was the courage and strength to move on

Let me live, not knowing how tomorrow will be

You can let me live
I don't know what will be

Let me live, not knowing how tomorrow will be

You can let me live
I don't know what will be, but let me live
Let me live

I am tired of this manipulation
Killing my freedom to believe
And to see
