Though at times it seems
Like i'm coming undone
This walk can often feel lonely
No matter what until this race is won
                                                  Em C
I will stand my ground where hope can be found % \left( 1\right) =\left( 1\right) \left( 1\right)
                                                              Em C G
I will stand my ground where hope can be found
Oh, O'Lord O'Lord You hear my cry
 Your love is lifting me above all the lies
No matter what I face this I know in time
 You'll take all that is wrong and make it right
You'll take all that is wrong and make it right
Whoa
Em C G D
Whoa
Your strength is found
At the end of my road
                                                                                                                                                                                                                                                                                                                      D

Your grace it reaches to the hurting
Still through the tears and the questioning why
I will stand my ground where hope can be found!
I will stand my ground where hope can be found!
Oh, O'Lord O'Lord You hear my cry
Your love is lifting me above all the lies
No matter what I face this I know in time
You'll take all that is wrong and make it right
                                  D
You'll take all that is wrong and make it right
So Right, Right so Right
I will stand my ground where hope can be found!
I will stand my ground where hope can be found!
