

LAUV - Love Somebody

tom:

G

Why do I do this?
Pick you up and put you down
And put you through this

C **G**
Started off as a good thing, sure thing
Em **D**
You held back, but? I know
C **G**
In the moment our lips touched
Em **D**
The rush sent us straight to the moon
C **G**
I should've known that we'd be coming down
Em **D**
Right to the bottom where we are now, mmm
C **G**
Started off as a good thing, sure thing
Em **D**
What the hell did I do? Yeah

C **G**
Every time I think I love somebody
Em **D**
Always find a way to throw it all away
C **G**
I don't ever wanna hurt nobody
Em **D**
I don't wanna be the one to say
C **G**
That we gotta have a conversation
Em **D**
I don't wanna watch the tears roll down your face
C **G**
No, I hurt you, and I, I'm sorry
Em **D**
All I wanted was to love somebody

C **G**
Why do I do this?
Em
Pick you up and put you down
D
And put you through this
C **G**
And why do I do this?
Em
Pick you up and put you down
D
And put you through this

C **G**
Every time I think I love somebody
