

Lav - From Me, The Moon

tom: G

C F

Two years and you still look the same

C F

Wide blinking eyes look at me the same way

G F

Do my lips take you back to June?

G F

Do my lips make you miss me too?

Dm C

Tell me if the years are all gone

Dm C

Is the moon still in love with the sun?

Dm C

Do you still keep counting my sins?

Dm C

Will your heart ever forgive my skin?

C F

How many more first kisses?

C F

Are you gonna watch me pick up the pieces

G F

I know you miss the furrow in my brow

G F

And I could be in your arms now

Dm C

Tell me if the years are all gone

Dm C

Is the moon still in love with the sun?

Dm C

Do you still keep counting my sins?

Dm C

Will your heart ever forgive my skin?

Dm C

Tell me if the years are all gone

Dm C

Is the moon still in love with the sun?

Dm C

Do you still keep counting my sins?

Dm C

And how do I win?

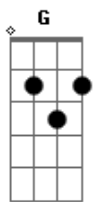

C F

To the first boy who lit me a flame

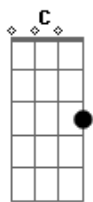

Dm F

Does your heart still remember my name?
