Intro: Gb E E Gb E E
To keep your friends
Don't leave them disappointed
Know that in the smallest detail
                                                        F
There is the greatest attitude
I have hope
That this connection will last
Like a rose bush lasting through the years
                                                                                                                                E E Bm A
                                 Gb
Or an afterlife on cloud nine
And I guess that's why we're good
And I guess that's why we're good
D A Gb Bm A
Nothing gets in our way
In everything now and then
                                        Gb
I'll wait for you
```

```
Like great friends
          Gb E E
Waiting for a snack
I don't feel very insecure
But it's nice to have company
              E E
We are very safe
  Gb
Of our ability to work together
And I guess that's why we're good
And I guess that's why we're good
                 Gb Bm
And all the chances appear on our side
                 Gb
How an angel's wings won't let him
And I guess that's why we're good
And I guess that's why we're good
And I guess that's why we're good
( A Gb Bm A D )
Guess that's why we're good
```
