

## **Led Zeppelin - Your Time Is Gonna Come**

```
tom:
                                                             Made up my mind
Intro: D C G A D A C G
                                                             To break you this time
                                                             Won't be so fine
[Primeira Parte]
                                                                Α
                                                             It's my turn to cry
       С
Lyin', cheatin', hurtin
                                                             Do want you want
That's all you seem to do
                                                             I won't take the brunt
                                                             It's fadin' away
Messin' around
                                                                               D C G A
With every guy in town
                                                             Can't feel you anymore
Puttin' me down
                                                             Don't care what you say
                        D C G A
                                                             'Cause I'm goin' away to stay
For thinkin' of someone new
                                                                G
Always the same, playin' your game
                                                             Gonna make you pay
Drive me insane
                                                             For that great big hole
                                                                 D C G A
                        D C G A
Trouble is gonna come to you
                                                             In my heart
One of these days
                                                             People talkin' all around
And it won't be long
                                                             Watch out woman
                                                              G
You'll look for me
                                                             No longer is the joke
And baby, I'll be gone
                                                             Gonna be on my heart
                                                              C
This is all I gotta say
                                                             You been bad to me woman
    G
                                                             But it's coming back home to you
To you woman
[Refrão]
                                                             [Refrão Final]
  Your time is gonna come
                                                               Your time is gonna come
                                                                Your time is gonna come
  Your time is gonna come
 Your time is gonna come
                                                               Your time is gonna come
  Your time is gonna come
                                                                Your time is gonna come
```
