

Lemonade Mouth - Turn Up The Music

```
tom:
             Em C D G (2x)
Na na na na na
Take a look around
Who would have thought we'd all be here?
So let's mess around
Cuz the future is unclear
We got nothin' better to do
We're just tryin' to get through
Can you hear me?
Can you hear me?
Let the music groove you
Let the melody move you
Feel the beat and just let go
         Em D C
Get the rhythm into your soul
Let the music take you
    Fm
Anywhere it wants to
When we're stuck and can't get free
No matter what, we'll still be singing
Come on, come on, turn up the music
        Em
It's all, we got, we're gonna use it
Come on, come on, turn up the music
Yeah
All we have is now
Let's make the most of this
Come on break it out
So everyone can hear it
They don't have to understand
But we'll make 'em if we can
Do you hear me?
Are you with me?
```
