                                                           You're falling out, I'm falling back
Hey you, are you asleep?
                                                           Where's your heart at?

Don't you feel alone?
I wonder if you're out, if you are drinking

Cause I, I think about, I think about you
But baby I ain't wasted, can't you call me?
Can't get along, can't be alone
                                                           Heavy-hearted trouble on my mind
Where's your mind at?
