

## Lewis Capaldi - Let It Roll

tom: Where'd you get to? Where'd you go? I been so low since you left Wish you kept leading me on Tried to reach you, tried to call I bang my head against your door But there ain't nobody home And if you want to stay lost a while I'll rearrange the road I take And meet you out in the wild And if you want, we can wait behind We could find a place to hide Maybe I could change your mind So, I'm holding out for something more Let me hold your rolling heart of stone Weigh down heavy like you did before Let me hold your rolling heart of stone Let it roll, let it roll, let it roll again Let it roll, let it roll, let me hold your heart of stone If you think you might feel the same I'll be right here where we left off Same old story, same old place I won't wander, I won't let go 'Cause there's more life in my bones Than you give me credit for And if you want to stay lost a while I'll rearrange the road I take

And meet you out in the wild

Bm

And if you want, we can wait behind

G

We could find a place to hide

D

Maybe I could change your mind

Composed Formula in the composition of the composit

You don't need to lose control
Fm
I just wanna let you know
