Intro:  E   Aadd9   Badd9   E

E                         Aadd9
I bring her coffee in the morning
Badd9                       E
She brings me inner peace
                    Aadd9
I take her out to fancy restaurants
Badd9                  E
She takes the sadness out of me
                    Aadd9
I make her cards on her birthday
Badd9                  E
She makes me a better man
                    Aadd9
I take her water when she's thirsty
Badd9                  E
She takes me as I am

Aadd9                 Badd9
I love it when her mind wanders
E                        Aadd9
And she loves it when I stay at home
Aadd9          Badd9
I know when she's lost
Dbm          E          Aadd9        Badd9
And she knows when I feel alone

E              Badd9
From all my airs and graces
    Dbm              Aadd9
To the little things I do
E           Badd9              Aadd9    (Aadd9  Badd9 )
Everything is pointless without you
E              Badd9
Of all the dreams I'm chasing
Dbm            Aadd9
There's only one I choose
E          Badd9              Aadd9
Everything is pointless without you

E                  Aadd9
I light the fire when it's cold out
Badd9                 E
And she lights up the room
                    Aadd9
I hope that she'll love me forever
Badd9                 E
She hopes I'll be back soon
                    Aadd9
I take her out to the movies
Badd9                 E
She takes away my pain
```

```
              Aadd9
She is the start of everything
Badd9                       E
And I'll be there 'til the end

Aadd9                     Badd9
I love when she laughs for no reason
E                        Aadd9
And her love's the reason I'm here
Aadd9          Badd9
She knows when I'm hurt
Dbm            E          Aadd9   Badd9
And I know when she's feeling scared

E              Badd9
From all my airs and graces
     Dbm             Aadd9
To the little things I do
E           Badd9        Aadd9   ( Aadd9  Badd9 )
Everything is pointless without you
E              Badd9
Of all the dreams I'm chasing
Dbm            Aadd9
There's only one I choose
E           Badd9        Aadd9   ( Aadd9  Badd9 )
Everything is pointless without you

E
I'll wait for you
Aadd9
I'll wait for you
Dbm            Aadd9  ( Aadd9  Badd9 )
You'll wait for me too
E
I'll wait for you
Aadd9
I'll wait for you
Dbm            Aadd9
You'll wait for me too

E              Badd9
From all my airs and graces
     Dbm             Aadd9
To the little things I do
E           Badd9        Aadd9   ( Aadd9  Badd9 )
Everything is pointless without you
E              Badd9
Of all the dreams I'm chasing
Dbm            Aadd9
There's only one I choose
E           Badd9              Aadd9
Everything is pointless without you

Aadd9          Badd9                E
Everything is pointless without you
```
