

Lewis Watson - Hello Hello

tom:

Intro: Bm A G Bm
Bm A G

Bm A G
Hearts get heady, you illuminate the sky
Bm A G
Somewhere steady we hallucinate their eyes
Bm A G
Living life unsteady on a planet black and white
Bm A G
But the colour's heavy when it's only you and I

Bm A G
Spilling secrets, can we keep this to ourselves
Bm A G
Little whispers, sudden shivers
G
And for a moment nothing else

Bm A
Hello, hello
G
Just let me hold you
Bm A
Your lonely bones
G
Just let me love you
Bm A G
Hello, hello

Bm A G
Hands slip slowly, make a spark under the moon

Bm A G
The stars stay glowing, ablaze beyond the bloom
Bm A G
Won't you say you'll throw me from the shadow that I hold
Bm A G
The hours slowly when it's only me and you

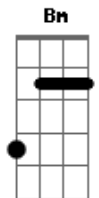

Bm A G
Spilling secrets, can we keep this to ourselves
Bm A G
Little whispers, sudden shivers
G
And for a moment nothing else

Bm A
Hello, hello
G
Just let me hold you
Bm A
Your lonely bones
G
Just let me love you
Bm A G
Hello, hello

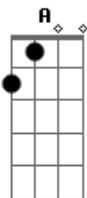

Bm A G
Spilling secrets, can we keep this to ourselves
Bm A G
Little whispers, sudden shivers
G
And for a moment nothing else

Bm A G
Hello, hello
