

# Lianne Kaye - Everything To Me

Tom: E  
( E A Gbm E )

I've been thinking lately  
About you baby  
What you're doing to me  
And I've been going crazy  
When you're not with me  
And it made me see  
As I start to realize  
You can't just run away and hide  
I got to keep on moving forward  
Got to keep fighting for what you believe  
And it made me see

When I'm on my own  
Sit here alone  
All I want is you  
Yeah you make me believe  
You're everything I need  
Can't you see you are everything to me  
( A B E )

The people who surround me

The ones who ground me  
They're the ones I need  
Friendships let them make it  
Chances I'm taken  
They won't ever leave

There I start to realize  
You just can't run away and hide  
I got to keep on moving forward  
Got to keep fighting for what you believe  
And it made me see

When I'm on my own  
Sit here alone  
All I want is you  
Yeah you make me believe  
You're everything I need  
Can't you see you are everything to me  
( A B E A )

I got to tell you this now  
As I'm moving things get lost somehow  
And I need you to know now  
I need you to see  
you're everything to me
