

Lianne La Havas - Grow

Tom: **G**
Intro: **Em**

Em
I resisted the charms of Evil's arms
As she stood by my bedside
Speaking in tongues
And the lovers who cried won't be denied
As they fight for their right
To grow, to grow
Please don't turn us down
Don't turn us down
Turn, turn

Em
Turn up the love
Turn up and watch it sing
As we grow
The future we don't know, know
Unless we're together
Together

Em
Turn up the love
Turn up and watch it sing
As we grow
The future we don't know, know
Unless we do it together

F#sus4
I requested to know what I did wrong
Cause I sure didn't mean to string you along
But the blood in my body
And my heart beat said
It's to feel a crime
A crime!

Bm7 **Am**

Take a piece of the sky if you understand
