Intro: **C Dm F Dm**

C This time away brings me even closer

C I see your face around every corner
Dm Each passing day is a little longer
F Can't fall asleep, so I count the miles

F G Dm As sure as the sun going down
C G I'll always be around
F I'll always be around

C I'm afraid of living here without you
Dm My years were made to wrap my life around you
F

When I'm away, our souls are tied

F G Dm As sure as the waves crash to the shore
C G I'll always be yours
F I'll always be yours

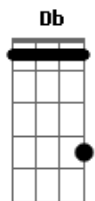

G Oh oahoah
Dm Oh oahoah

C I'm in the dark, and there's a light that's shining
Dm In Central Park, where all the ghosts are hiding
F This city spark starts to fade

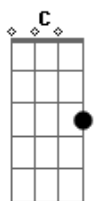

F G Dm As sure as there are stars up above
C G You'll always be loved

F G Dm And as sure as gravity pulling us down
C G I'll always be around
F I'll always be around
