Lifehouse - Crash And Burn

Tom: Eb
Intro: Ab Eb

```
Ab                                      Eb
All these lights are catching up to me
    Ab                              Eb
I just can't put insomnia to sleep
    Ab                              Eb
I close my eyes but all that I can see
      Ab                          Eb
Is someone who I'm never gonna be
   Ab
I hope that you can bring me back
     Bb
I gotta make it right

       Cm                  Bb
And if I fall and crash and burn
          Eb                 Ab
At least we both know that I tried
          Cm                  Bb
And as I crawl those lessons learned
         Eb            Ab
Yeah they remind me I survived
                       Eb
Yeah, yeah, yeah

Ab                                     Eb
Silence just keeps screaming back at me
      Ab                           Eb
The ones I love are lost in memories
        Ab                              Eb
And I wish that I could take back what was done
        Ab                          Eb
You can only change the person you've become
   Ab
I have to try and find a way
     Bb
To leave it all behind

           Cm                  Bb
```
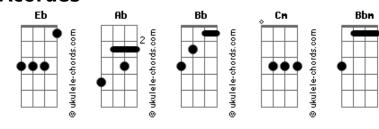

```
And if I fall and crash and burn
          Eb                 Ab
At least we both know that I tried
          Cm                  Bb
And as I crawl those lessons learned
         Eb            Ab
Yeah they remind me I survived
             Cm                  Bb
And I've been hurt and I've been scarred
          Eb            Ab
At least I know that I'm alive
          Cm                  Bb
And if I fall and crash and burn
          Eb                 Ab
At least we both know that I tried

Bbm         Ab           Eb
   All of the things I tried say
Bbm                          Eb
   All of the words just got in the way
Bbm          Ab            Eb
   I'm waiting here, I need your help
Bbm                  Ab          Eb
   Don't leave me down here all by myself

          Cm                  Bb
And if I fall and crash and burn
          Eb                 Ab
At least we both know that I tried
          Cm                  Bb
And as I crawl those lessons learned
         Eb            Ab
Yeah they remind me I survived
             Cm                  Bb
And I've been hurt and I've been scarred
          Eb            Ab
At least I know that I'm alive
          Cm                  Bb
And if I fall and crash and burn
          Eb                 Ab
At least we both know that I tried
```
