Chorus

Time took to figure out: 2 hrs.

I think this also sounds good for the other half of the chorus:

ALTERNATIVE **E** CHORUS (2ND HAL **F**)

On the forth time:

When you are doing the "slides" from 577 to 220 for the end, make sure you strum, NOT slide. I put slide because in a way you are but its mostly strumming and sliding quickly
You stay at the 466 and 355 for just like a half second then go down. It's very quick
and I think it adds a bit of style to it. It sounds nice.

I hope everyone likes this!!!!
