

Lifehouse - Smoke & Mirrors

Tom: G

(intro) Em G D Em G D Em G D Db

C D
There was a time, was a place back when
C D
You and I were living alone together
C D
We held each other in the middle of the night
Db
And swore we'd somehow make it better
C D
We set our sights on the big city lights
C D
No moss on these rolling stones
C D
And here we are with everything we ever wanted
Db C
But now we're together alone

(refrão)

Em G D
Gotta break out of this place we're in
Em G D
Running out of time and out of sin
Em G D Db C
We were living smoke and mirrors anyway
Em G D
Gonna drive all night 'til we disappear
Em G D
Chasing down the miles so far from here
Em G D Db
As the smoke and mirrors start to fade away
C
We're still the same

(repete as notas)

I remember thinking we could make it out somehow
If somehow we ever took a chance
We packed up what we had and threw it in the trunk
Didn't give our life a second glance
Now the days roll hard and the nights move fast
They say be careful what you wish
But having everything means nothing to me now
What we had is everything to miss

(repete notas refrão)

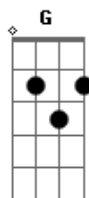

Gotta break out of this place we're in
Running out of time and out of sin
We were living smoke and mirrors anyway
Gonna drive all night 'til we disappear
Chasing down the miles so far from here
Em G D Db
As the smoke and mirrors start to fade away
C Db C
You know we're still the same...Oooohh Still the same
Db C Em G D Em G D Em G D Db C
Ohhhhh... whoaaa ... whoaa ... Whoaa

(repete notas refrão)

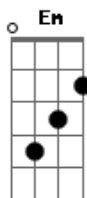

Gonna drive all night 'til we disappear
Chasing down the miles so far from here
As the smoke and mirrors start to fade away
And we're all we've got so let's hold on tight
To the dreams that came before the fight
We were living smoke and mirrors anyway

Whoaaa!
