

## **Lighthouse Family - Live Again**

tom: Em G I've been through days of silence When I thought I saw your face It happens all the time now It's how I fill my empty days The dark days are coming And I know there's no escape I didn't think I cared that much Now I'm losing everything I don't know where I am I don't know what to do And I don't know who I am I don't know where to go And I don't know what it is I don't know how to live And I just wanna see you Hang on It's not the end We're gonna live again I'll be with you again We're gonna live again The last days of summer And our thirty thousand days We've put it all behind us now

There's just an empty space The miracles of science And the God that gave my faith They ain't been much use to me With the things I can't replace I don't know where I am I don't know what to do And I don't know who I am I don't know where to go And I don't know what it is I don't know how to live And I just wanna see you Hang on It's not the end Rm We're gonna live again I'll be with you again We're gonna live again It's not the end We're gonna live again I'll be with you again We're gonna live again Hang on It's not the end BmWe're gonna live again I'll be with you again

I've been through days of silence When I thought I saw your face We've put it all behind us now There's just an empty space
