F                       G
 I wrote this song for you
Am                G      F
  I gave you all I knew how to
                    G
 I kept you in my mind and
Am                G
  I just need you to listen
F               G
 I miss you every day
Am                    G
  Nothing is ever the same
       F              G
 Without you I am not me
Am                   G
  My soul is empty I feel
F
So fucking empty
             G
So fucking tired
Am                    G
I just need you by my side
F
So fucking empty
             G
So fucking tired
Am                   G
I just need you all the time
F
Everyone is growing
                 G
Everyone is coping
Am
I dont know how to feel
                 G      F
I dont know to handle this
                      G
Why do I feel so alone?
Am                        G
Why do I feel like I'm always on my own
