

# Lil PEEP - Awful Things

Tom: Ab

m

Bother me, tell me awful things  
 You know I love it when you do that  
 Helps me get through this without you

Bother me, tell me awful things  
 You know I love it when you do that  
 Helps me get through this without you  
 Bother me, tell me awful things  
 You know I love it when you move that on me  
 Love it when you do that on me

You like attention, I find it obvious  
 She makes it obvious for me  
 She feels the tension  
 It's just the two of us, it's just the two of us tonight  
 Burn me down 'til I'm nothin' but memories  
 I get it, girl (I get it, girl)  
 I get it, girl  
 Burn me down 'til I'm nothin' but memories  
 I get it, girl (I get it, girl)  
 I'm not the one

Bother me, tell me awful things  
 You know I love it when you do that  
 Helps me get through this without you

Bother me, tell me awful things  
 You know I love it when you move that on me  
 Love it when you do that on me

Don't you turn your back on me  
 Let your teardrops fall on me  
 Speeding away, the city in the rear view  
 Heart racing whenever I'm near you  
 GothBoi jumpin' on stage  
 Carry me away, carry me away  
 Burn me down 'til there's nothing left  
 I will scream your name with my last breath  
 Take off your favorite dress  
 Lay your head on my chest  
 Diamonds, rubies and gems  
 You can have all of them

[Ponte]  
 Bother me, tell me awful things  
 You know I love it when you do that  
 Helps me get through this without you

Bother me, tell me awful things  
 You know I love it when you do that  
 Helps me get through this without you  
 Bother me, tell me awful things  
 You know I love it when you move that on me  
 Love it when you do that on me
