                A                       C
She said I'm a crybaby, I can't be up lately
                A            C
Girl you drive me crazy, AMG Mercedes
               G                    F-
Speeding down the highway, looking at the street lights
            G            F-
Geeking on a Friday, I can never sleep right
          A                 C
Knowing I hurt you, I don't deserve you
            A                    C
I should've curved you, I know I'm the worst boo
                 G                       F-
But I could be cool too, and you got them dance moves
               G                         F-
And I got this vibe, I swear it's perfect to ride to
          A                  C
I wanna die too, we all wanna die too
           A                         C
I got this vibe I swear she love getting high to
               G            F-
I love getting high too, I wanna hide you
           G            F-                          A
How did I find you? I'll be inside, I'm making music to cry
too
               C                A
Oh it's a lonely world, I know
