

LiL PEEP - Haunt U

Tom: **G**

My time is here and I'm making it clear
G Oh I love you my dear
D But I'm going, I'm gone
Em I might come back when the Benz all black
G Ten racks on my lap
D If I don't relapse and I stay strong
Em I could do anything I want to
C Bump Lil Peep, when I die I'mma haunt you
G I could live forever if I want to
D I could stop time but I never wanna do that again
Em Nothing worse than losing a friend

C And the feeling you get when everybody that you love ain't around
G I really gotta get away from this town
D I'm just waiting for a wave and I'll drown
Satan letting me down
Em I just wanna help you see, you should run away from me
C Baby I'm a drug and I don't wanna hurt you
D No I'm not gonna hurt you girl, not at all
Em I ain't gonna set you free
C All you gonna get from me
G Little bit a love and a little virtue
D If I hurt you, I'll end it all
