

# Limon Juice - At Least I Told Her

Tom: D

At least she knows what I feel  
 Deep inside  
 Cause I told her no lies  
 My heart will be  
 Open through the night  
 I hope she will feel what I feel  
 Will she act any different

When I'm around?  
 Now that she knows how  
 It happened to be love  
 Oh honey, please allow  
 Me to enter your heart  
 It happened to be love  
 Why would you lock inside?  
 Don't you say you lost the key
