Note: I am aware that Wes' tuning is C#,F#,B,E,G#,**Db** but i couldnt be bothered to tune down for a song that is primarily played on a keyboard.  
Therefore the song is in standard tuning and it is a keyboard

arrangement for the guitar.

Play through intro,verse and chorus but not the break

Repeat throughout whole song

Note: You will have to listen to the song carefully to breakdown the 3 parts properly.
