Here's another awsome remix of yet another awsome song from the great LP. This is a remix of the greatest hit, In the End. Like FRGT/10, this song is completely hip hop, no rock. It was remixed by Kutmaster Kurt and featured Motion Man The bassline is fairly simple and the Rhythm is pretty sweet, the little fills they put in is what makes this line sweet. Very fun to play. Have fun, and Peace Ya'll.

Tuning: Standard 5-String: B, E, A, D, **G**  
 (This song can and should be played on a four string, but just for fun I tabbed it normally and an octave lower)
