

## **Linkin Park - Looking For An Answer**

```
Intro: Am G F
Am
There's an emptiness tonight
A hole that wasn't there before
And I keep reaching for the light
 But I can't find it anymore
 There's an emptiness tonight
A heavy hand that pulls me down
      G
 They say it's gonna be alright
      G
 Can't begin to tell me how
And I ask myself out loud
Have I been loooost all along?
Was there something I could say
Or something I should not have done?
Was I looooost all along?
Was I looking for an answer
      Am
When there never really was one?
Was I looking for an answer
      Am
When there never really was one?
(Am G F)
 Is there sunshine where you are?
 The way there was when you were here
```

## **Acordes**

```
' Cause I'm just sitting in the dark
 In disbelief that this is real
 In disbelief that this is real
Have I been loooost all along?
Was there something I could say
          Am
Or something I should not have done?
Was I looooost all along?
Was I looking for an answer
       Am
When there never really was one?
Was I looking for an answer
When there never really was one?
And I ask myself out loud
Have I been loooost all along?
Was there something I could say
         Am
Or something I should not have done?
Was I looooost all along?
Was I looking for an answer
When there never really was one?
Was I looking for an answer
When there never really was one?
```
