Intro: **F Dbm Ebm Bbm**

[Primeira Parte]

Inside, it feels like I've been barely breathing
Feels like air is running out
Inside, I'm stuck here staring at a ceiling (ceiling)
You put up to keep me down, down, down, down, down

[Pré-Refrão]

Waking up without a name
Open up my eyes knowing nothing is the same (same)
Circling around a drain
As I realize that there's no one else to blame

[Refrão]

Staring up from the bottom, up from the bottom

[Segunda Parte]

Each time I hold my fist inside my pocket
Hold my breath until I'm blue
Feels like a knife pushed deep inside a socket (socket)
Bristling, listening to you, you, you, you, you

[Terceira Parte]

[Ponte - Rap]

Everybody out, that devil is coming
Poison on his lips and his words mean nothing
Cold like a mountaintop, father never loved him
Mama said he's bad enough times that it sunk in
Everybody out, that devil is coming
Promise you the world, but he's always bluffing
Before you even know, it's a trap you're stuck in
He's gone like a ghost, already off running
