

# Little Mix - About The Boy

Tom: **G**

(Intro - Acapella)

Something about, something about the boy  
 Something about, something about the boy  
 Something about, something about the boy

Just something about the boy

[Verse 1:]

It's the verse in my head, the words that make stutter  
 The swag in my step, the change from gray to color  
 I guarantee babe, oh I found my lucky number  
 And the feeling that you get can't help but make me wonder

[Pre Chorus:]

No need to try, he's just right (He's got that something  
 I can't let nobody tell me no)  
 No I don't mind Takes me high  
 I won't stop until the boy is mine

[Chorus:]

He's got me good, I've got it bad  
 He's got me feeling like a girl gone mad  
 Got me running around like I'm a love fool  
 Taking me down I can't stop  
 He's got me up, I can't come down  
 He's got me locked and I don't want out  
 I know he's playing my heart and I ain't got no choice  
 There's just something about the boy  
 Something about, something about the boy  
 Something about, something about the boy  
 Something about, Something about the boy  
 There's just something about the boy

[Verse 2:]

It's the first time we met, the lightening to my thunder  
 The green light on red, the kiss that pulls me under  
 It's all in for me, if you're the test I got the answer  
 And I'm all that you need, now you finally get the chance to

[Pre Chorus]

No need to try, he's just right (He's got that something

I can't let nobody tell me no)  
 No I don't mind Takes me high  
 I won't stop until the boy is mine

[Chorus]

He's got me good, I've got it bad  
 He's got me feeling like a girl gone mad  
 Got me running around like I'm a love fool  
 Taking me down I can't stop  
 He's got me up, I can't come down  
 He's got me locked and I don't want out  
 I know he's playing my heart and I ain't got no choice  
 There's just something about the boy  
 Something about, something about the boy  
 Something about, something about the boy  
 Something about, Something about the boy  
 There's just something about the boy

[Bridge:]

I know you like to play it slow, but I'm running out of time  
 It's like I lost my self control, 'Cause you are the one  
 And you know what you've done, My poor heart come undone  
 Baby please

[Chorus]

He's got me good, I've got it bad  
 He's got me feeling like a girl gone mad  
 Got me running around like I'm a love fool  
 Taking me down I can't stop  
 He's got me up, I can't come down  
 He's got me locked and I don't want out  
 I know he's playing my heart and I ain't got no choice  
 There's just something about the boy

[Outro:]

Something about, something about the boy  
 Something about, something about the boy  
 Something about, Something about the boy  
 There's just something about the boy

## Acordes
