

Little Quirks - About The World

Tom: C

Let's go to a place where we hide away

Our place that we could run to anyday

Trust in you we'll see if that's easy

Or if you just close your eyes and think of me

You know I had you all this time

Look at your mind

See and wonder about the world

About the world

And that your eyes

Hold back in the stars from the world

From the world

Trust in you we'll think of a better place to be

Or just close your eyes and think of me

Let's go to a place where we hide away

Our place that we could run to anyday

You know I had you all this time

Look at your mind

See and wonder about the world

About the world

And that your eyes

Hold back in the stars from the world

From the world

Where I close your eyes and take your hand

Turn while you stand

I know it's hard to lose control

So take that step and let it go

So take that step and let it go

Acordes
