Smart, funny, you're like honey
                                                               And oh-ooh
I want you to trickle right down my throat
You're a sweet baby, I'm a sad, sad lady
                                                               Myself, myself
But somehow you always make me feel at home
                                                               [Refrão]
My heart's heavy, please, don't let me
Please, don't ever let me let you go
'Cause I'd like to lay beside you all night
[Pré-Refrão]
C D
You make me wanna, make me wanna lose
Myself, myself
[Refrão]
When I'm laying in bed, got post-sex clarity
I still love you, and I don't know why
'Cause every other man wouldn't mean a God damn to me
When I finish, it's not the end of you and I
When I'm laying in bed, got post-sex clarity
I still love you, and I don't know why
'Cause every other man wouldn't mean a God damn to me
When I finish, it's not the end of you and I
[Segunda Parte]
                                                               [Final]
Good, given, passionate with it
 You made me feel like I could fly away
No, they didn't do it how you just did it
 So I want you to stay and I'm pushing off your love
