

# LOONA (K-Pop) - Dance On My Own

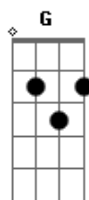

tom:

Intro: G Bm Em C

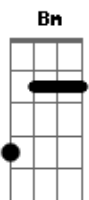

I made you my everything  
Put my life in your hands  
And you held the strings  
Don't know who I am anymore  
Let me down every time and I hit the floor  
And you gave me nothing at all  
Only empty excuses to try  
And break the fall, so  
I did what I never could to do  
And I cut myself loose from you  
I don't need nobody to move  
My body all me with no strings attached  
I don't wanna be somebody who  
Lets somebody hold me if they hold me back  
I just wanna dance dance  
Dance on my own  
I just wanna dance dance  
Dance on my own  
I don't need someone to feel something  
It's just me myself and I love it  
I just wanna dance dance  
Dance on my own  
I don't need someone to feel something  
It's just me myself and I love it  
I just wanna dance dance  
Dance on my own  
I'm back and I'm feelin' myself  
Gonna make a little room for my mental health

And if I stay out all alone  
I got one less problem that I'm bringing home  
I don't need nobody to move  
My body all me with no strings attached  
I don't wanna be somebody who  
Lets somebody hold me if they hold me back  
I just wanna dance dance  
Dance on my own  
I just wanna dance dance  
Dance on my own  
I don't need someone to feel something  
It's just me myself and I love it  
I just wanna dance dance  
Dance on my own  
I don't need nobody to move  
My body all me with no strings attached  
I don't wanna be somebody who  
Lets somebody hold me if they hold me back  
I just wanna dance dance  
Dance on my own  
I just wanna dance dance  
Dance on my own  
I don't need someone to feel something  
It's just me myself and I love it  
I just wanna dance dance  
Dance on my own  
I don't need someone to feel something  
It's just me myself and I love it  
I just wanna dance dance  
Dance on my own
