

Lou Reed - Going Down

Tom: **A**

A
When you're in a dream
and you think you've got your problems all nailed down
A
Pieces of the scheme
E
Seem to rattle up and to rattle down

A
And when you start to fall
D7M
And those footsteps they start to fade
Bm
Then you know you're going down
Bm
Yeah, you're falling all around
Bm
And you know you're going down
A
for the last time

A
When you're in the air
E
And you're thinking you'll drift off into the rest
A
Your friends politely advise
E
Hey look you're pushing too hard And perhaps you need a rest
A

And when you start to fall
D7M
And those footsteps they start to fade
Bm
Then you know you're going down
Bm
Yeah, you're crashing upside down
Bm
And you know you're going down
for the last

A
Time's not what it seems
A7
it just seems longer, when
D
you're lonely in this world
Dm
Everything it seems
A7
would be brighter if your nights
D
were spent with some girl
Dm

Bm
Yeah, you're falling all around
E
Yeah, you're crashing upside down
Bm
Oh, oh, and you know you're going down
E
for the last time
