

Lou Reed - Going Down

Tom: **A**

A
When you're in a dream
and you think you've got your problems all nailed down
A
Pieces of the scheme
E
Seem to rattle up and to rattle down

A
And when you start to fall
D
And those footsteps they start to fade
Bm **E**
Then you know you're going down
Bm **E**
Yeah, you're falling all around
Bm **E**
And you know you're going down
A
for the last time

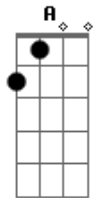

A
When you're in the air
E
And you're thinking you'll drift off into the rest
A
Your friends politely advise
E
Hey look you're pushing too hard And perhaps you need a rest
A

And when you start to fall
D
And those footsteps they start to fade
Bm **E**
Then you know you're going down
Bm **E**
Yeah, you're crashing upside down
Bm **E**
And you know you're going down
for the last

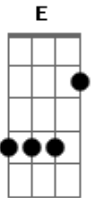

A **A7**
Time's not what it seems
D
it just seems longer, when
Dm
you're lonely in this world
A **A7**
Everything it seems
D
would be brighter if your nights
Dm
were spent with some girl

Bm **E**
Yeah, you're falling all around
Bm **E**
Yeah, you're crashing upside down
Bm **E**
Oh, oh, and you know you're going down
A
for the last time
