

LP - When We're High

Tom: E

There was a time there was a life I was inside my head
 Then finally I rested in your bed
 The bars the dives the worst of vibes
 I thought had come to pass
 But still I couldn't seem to make it last
 I'd swallow the moon and stars
 To follow the beat of your heart
 When we're high
 Oh my god you blow my mind
 So let's get high
 Live until we die, yeah
 You and I
 Let's just do it one more time (a million times)
 Let's get high (let's get high)
 Live until we die, yeah
 A state of mind collected like
 a slowly wound bouquet
 With memories of our favorite nights and days
 I'd swallow the moon and stars
 To follow the beat of your heart
 When we're high
 Oh my god you blow my mind

So let's get high (let's get high)
 Live until we die, yeah
 You and I
 Let's just do it one more time (a million times)
 Let's get high (let's get high)
 Live until we die, yeah
 (Em B Am Em B)
 Oh my, my, kiss the sky
 Jimmy, baby, you were right
 She's so fine, hips don't lie
 Hit me baby one more time
 Go 'head and insert any random ass line
 Go 'head, yeah, yeah
 'Cause when we're high
 Oh my God, you blow my mind
 So let's get high (let's get high)
 Live until we die, yeah
 You and I
 Let's just do it one more time (a million times)
 Let's get high (let's get high)
 Live until we die, yeah
 Live until we die, yeah
