

LP - Your Town

Tom: C

C
Another year gone and lost and lately

Am
I would die just to talk or maybe hold you for a day

C
It's not sunny like California

But the stories on every corner

Am
Make the cold winds feel okay

F Am G
Although I know that we've gone on alone and we're caught in the dark

F Am G
I'm already thrilled just to be in the place where you are

C
I feel a little less lonely right away

Em
Something in the air intoxicates in your town

G C
And even though the streets are filled with pain

Em
There's a part of me that always wants to stay in your town

G F Am G
And time stays frozen, all seems golden now

C
Going past old and new at break speed

Am
Holding on tight while snapshots take me over, turn the page

C
Wondering, do you know I'm here

Am
Thinking I see you everywhere and nowhere, it's all the same

F Am G
Although I know that we've gone on alone and we're caught in the dark

F Am G
I'm already thrilled just to be in the place where you are

C
I feel a little less lonely right away

Em

Something in the air intoxicates in your town
