

Lucas Mayer - Sailorman

Tom: C

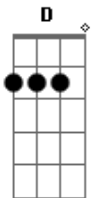

All night lying down on the sandy shore
And those lights are blue because of you
And they decide to fall down from the sky
So they can swim next to you
They were stars
That fell in love with the sea
And when they saw you swimming
Going deep, so deep

They had a crush on you
Like me they had a crush on you
They had a crush on you
Like me they had a crush on you
All night lying down on the sandy shore
And those lights are blue because of you
While dragonflies tell the sailorman
Here comes the rain it's a monsoon
But I'm not a jealous guy
