

Lucius - White Lies

tom:

In the middle of the night When you're in the dark Do you think about me and you And why it wasn't ours? But we could turn the lights down If you wanna see what it's like to turn every moment into a memory I just wanna lie with you Teach me how to bend the truth I don't wanna know the meaning, I just need you now We both know how it ends, there's nothing to figure out Do I really need a reason if I have no doubt? Until nothing is left, so let's just pretend for now If you have to try to love me If that's the way it's gonna be Well, at least we can have right now and it's bitt?rsweet Acordes

I just wanna lie with you Teach me how to b?nd the truth I don't wanna know the meaning, I just need you now We both know how it ends, there's nothing to figure out Do I really need a reason if I have no doubt? Until nothing is left, so let's just pretend for now White lies, fine lines, white lies Just this time Abm White lies, fine lines, white lies We both know how it ends, there's nothing to figure out (White lies) Do I really need a reason if I have no doubt?
