

# Lucy Spraggan - Last Night

Tom: G

G Am  
Last night I told you I loved you  
C  
Woke up blamed it on the vodka  
G Am  
I genuinely thought I was dying  
C  
And I could see that smile you were hiding  
G Am  
Last night I told you I need you  
C  
That's the last time I drink tequila  
G Am  
Super lemon and his physic salt kit  
C  
I start crying and verbally assaulting  
G Am  
Last night I asked you to marry me  
C  
That's when I remembered the brandy  
G Am  
I wake up and claim I didn't say it  
C  
Screwed if I ever wake up in Vegas  
  
G D  
Wish I could stop and I'm not joking  
Em C  
Drinking too much and socially smoking  
G D  
Wish I could stop and start to behave  
Em  
And then wake up in the morning  
C  
And never miss a day again  
  
G Am  
Last night police had to frisk me  
C  
In the cells thanks to Bell's fine Whiskey  
G Am  
I think I said too much  
C  
"Do you like my bracelets? Oh wait they're handcuffs"  
  
G Am  
Last night I said I want your babies  
C  
Forget the ice, it's not nice to drink Bailey's. Yuuch  
G Am  
I drink that much that I forget  
C  
Whatever embarrassing thing I say next

G Am  
You said I got on one knee, and there's no way?  
C  
Unless I've been drinking, oh wait, Rose!  
G Am  
Sailor Jerry's Rum I think I drank me a ship full.  
C  
Please, please, someone provide me a dis' bro.  
  
G Am  
Last night I called you a loser  
C  
I think that was after flaming sambuca  
G Am  
I shouted at you "do me a favor"  
C  
And that's when I fell off the pavement  
  
G D  
Wish I could stop and I'm not joking  
Em C  
Drinking too much and socially smoking  
G D  
Wish I could stop and start to behave  
Em  
And then wake up in the morning  
C  
And never miss a day again  
  
G Am  
Cause I'd love to learn when to shut my mouth  
C  
Wake up in the morning and be in my own house  
G Am  
Do one last shot and know when to stop  
C  
No more photo's on facebook of me doing the robot  
G Am  
Know when to leave and when to lock my front door  
C  
Stop waking up in cheese and in a bed full of people  
G Am  
Sitting in a cupboard with my weird bestfriend  
C  
But I'm only young so I'm not gonna pretend I  
  
G D  
Wish I could stop cause I'm not joking  
Em C  
I love drinking too much and socially smoking  
G D  
Don't wanna stop or learn to behave, Amen  
Em C  
And hey I just missed another day again  
  
End on G
