Luis Curinga - Trouble

Tom: E

```
                    E
I Have to learn to like myself
   Dbm
A Gotta reach sky line
         B
I don't know if it's time
      A                  E
But I Just know that I'm in trouble
      E
I don't know maybe will laugh
      Dbm
But during my panic
         B
That sometimes free me
        A            E
```

```
I'll find a way to cry
A                                    E
Look away from here and you'll see your back
             E
I see the answer Turing to bombs
               Dbm
When the responsible is the idol
           B
I don't know if it's your fault
      A              E
But now he is a cold guy
      E
I don't know if the stopped time is a signal
         Dbm
I don't know if the inverse is natural
   B                        A            E
Now, is forget that you are always thinking on it
```
