

Luiz Fontineli - A Madrugada

Tom: F

Intro: F7 G C G Am Am F7 G C

O vento forte varre a poeira

E a lua cheia que clareia o escuro

Tem um mendigo lá na calçada

Guarda noturno atrás de um ladrão

E no silêncio só se escutam as folhas secas pelo chão

Crianças que as vezes choram com medo de assombração

E no calar da madrugada a chuva vem e molha o chão

O pingo d'água molha o rosto, eu lembro logo do sertão

O grilo canta no meio da mata

O boi levanta e os pássaros se espantam

Uma coruja em cima do telhado

Espera o dia para adormecer

E o vento forte continua assoprando as ondas do mar

Um pescador com sua rede querendo o seu pão ganhar

E da janela eu vejo tudo a madrugada se acabar

O povo todo se levanta e o novo dia vai raiar

(Bb F7 Db Dm G C G C D7 G)

E a coruja já foi embora

Chegou a hora dela adormecer

O galo canta na alta serra

Dizendo ao povo que o sol vai nascer

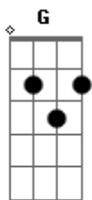

E o vento forte continua assoprando as ondas do mar

Um pescador com sua rede querendo o seu pão ganhar

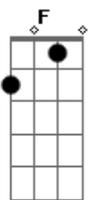

E da janela eu vejo tudo a madrugada se acabar

O povo todo se levanta e o novo dia vai raiar
