

# Lukas Graham - You're Not There

Tom: F

I only got you in my stories  
 And you know I tell them right  
 And remember you and I, when I'm awake at night  
 So give it up for fallen glory  
 I never got to say goodbye  
 I wish I could ask for just a bit more time  
 Every step I take, you used to lead the way  
 Now I'm terrified to face it on my own  
 You're not there  
 To celebrate the man that you made  
 You're not there  
 To share in my success and mistakes  
 Is it fair?  
 You'll never know the person I'll be  
 You're not there  
 With me...

Though I know that you're not there  
 I still write you all these songs  
 It's like, you've got the right to know what's going on  
 As I struggle to remember how you used to look and sound  
 At times I still think I can spot you in the crowd

Every step I take, you used to lead the way  
 Now I'm terrified to face it on my own  
 You're not there  
 To celebrate the man that you made  
 You're not there  
 To share in my success and mistakes  
 Is it fair?  
 You'll never know the person I'll be  
 You're not there  
 With me...

Time can heal your wounds if  
 You're strong and standing tall  
 I've been doing all of that, it didn't help at all  
 They say "You'll grow older, and it'll get better still"  
 Yes, I will, but no it won't  
 They don't get it, cause...

You're not there  
 To celebrate the man that you made  
 You're not there  
 To share in my success and mistakes  
 Is it fair?  
 You'll never know the person I'll be  
 You're not there  
 With me
