Luke Bryan - Build Me a Daddy
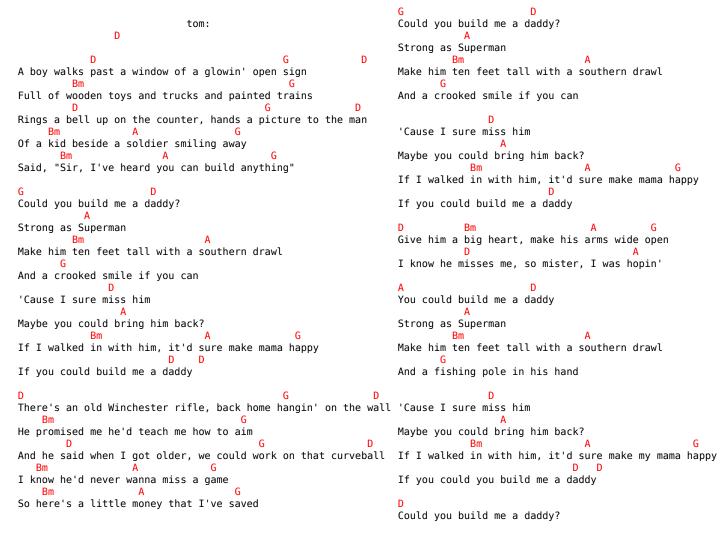

```
                          tom:
                    D

          D                             G        D
A boy walks past a window of a glowin' open sign
        Bm                              G
Full of wooden toys and trucks and painted trains
        D                      G            D
Rings a bell up on the counter, hands a picture to the man
      Bm          A            G
Of a kid beside a soldier smiling away
      Bm            A            G
Said, "Sir, I've heard you can build anything"

  G                       D
Could you build me a daddy?
                    A
Strong as Superman
        Bm                    A
Make him ten feet tall with a southern drawl
      G
And a crooked smile if you can
              D
'Cause I sure miss him
                          A
Maybe you could bring him back?
        Bm            A            G
If I walked in with him, it'd sure make mama happy
                    D    D
If you could build me a daddy

D                               G          D
There's an old Winchester rifle, back home hangin' on the wall
      Bm                        G
He promised me he'd teach me how to aim
          D                     G          D
And he said when I got older, we could work on that curveball
    Bm          A          G
I know he'd never wanna miss a game
    Bm            A      G
So here's a little money that I've saved
```

```
  G                       D
Could you build me a daddy?
                    A
Strong as Superman
        Bm                    A
Make him ten feet tall with a southern drawl
      G
And a crooked smile if you can

              D
'Cause I sure miss him
                          A
Maybe you could bring him back?
        Bm            A            G
If I walked in with him, it'd sure make mama happy
                          D
If you could build me a daddy

D         Bm                A        G
Give him a big heart, make his arms wide open
              D                      A
I know he misses me, so mister, I was hopin'

A                           D
You could build me a daddy
                    A
Strong as Superman
        Bm                    A
Make him ten feet tall with a southern drawl
        G
And a fishing pole in his hand

              D
'Cause I sure miss him
                          A
Maybe you could bring him back?
        Bm            A            G
If I walked in with him, it'd sure make my mama happy
                          D    D
If you could you build me a daddy

D
Could you build me a daddy?
```
