She had a **G** cross around her neck
And a **D** flower in her hand
That I **Em7** picked from the side of Thomas Drive
On our way to the sand
We found an **G** old wooden chair
Still warm from the sun
Pushed it back, gave me a kiss
with **C** Bacardi on her lips and I was done

And we **G** spent that week wide open
Upside **D** down beside the ocean
I didn't know where it was going
Just trying to keep my heart on the tracks
I should've **G** known that kind of feeling
Would last **D** longer than that week did
Blown away and barely breathing
Sunday came and it was over
Now she's got me twisted
Like an old beach roller coaster
(**G**)

The rest of those days
D

Turned into long crazy nights
When the music got loud
We'd sneak away from the crowd under the **C** boardwalk lights
And with **G** all the things we said
What I **D** just can't get past
Is the way we let it end
Now I'm wondering where she is
G Knowing I can't get that goodbye back
And we **G** spent that week wide open
Upside **D** down beside the ocean
I didn't know where it was going
Just trying to keep my heart on the tracks
I should've **G** known that kind of feeling
Would last **D** longer than that week did
Blown away and barely breathing
Sunday came and it was over
Now she's got me twisted
Like an old beach roller coaster

She's like a song playing over and over
In my mind, where I still hold her
I had the chance and I should've told her
And we **G** spent that week wide open
Upside **D** down beside the ocean
I didn't know where it was going
Just trying to keep my heart on the tracks
I should've **G** known that kind of feeling
Would last **D** longer than that week did
Blown away and barely breathing
Sunday came and it was over
Now she's got me twisted, yeah, I'm still twisted
Like that old beach roller coaster

D Like that old beach roller coaster
