                                                                                                                                                                                                                                                                                                                                                                                             But I'm a hell of a lover
But it does to me
                                                                                                                                                                                                                                                                                                                                                                                             A damn good brother
 [Segunda Parte]
                                                                                                                                                                                                                                                                                                                                                                                             And I wear this heart on my sleeve
I was the one phone call when \ensuremath{\mathsf{my}} brother went to jail
                                                                                                                                                                                                                                                                                                                                                                                             And I'm a damn hard working
Pawned my guitar just to pay his bail
                                                                                                                                                                                                                                                                                                                                                                                             One thing's for certain
No, I'll never get it back
                                                                                                                                                                                                                                                                                                                                                                                             I stand up for what I believe (for what I believe)
But I'm okay with that
                                                                                                                                                                                                                                                                                                                                                                                             Well, that might not mean much to you
I was the first man standing next to my best friend
                                                                                                                                                                                                                                                                                                                                                                                             But it does to me
The day the love of his life said I do to him
                                                                                                                                                                                                                                                                                                                                                                                             Well, that might not mean much to you
 I was a couple beers deep
                                                                                                                                                                                                                                                                                                                                                                                                  Yeah, it doeso me
But I still remembered that speech
 Acordes
```

And that might not mean much to you
