

Luke Friend - Hole in My Heart

tom:
Capotraste na 2ª casa
Intro: Dbm A E B

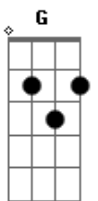

Dbm A E B
Since you've been gone nothing makes any sense
Cause being with you was the thing I did best
Now that it's over what else have I left?
Cause I need you so, much I can't lose you
I need you to know
You might've gone but I'll never let go!
Cause one day I know that, you'll come back home
Cause I won't let go
There's a hole in my heart can you fix it?
There's a hole in my heart
Since you been gone!
Is this - L - O - V - E
Somebody tell me what's happening to me
Is this - L - I - F - E
Somebody tell me, just what's happening to me
Since you been gone
(A E B)
I want you so much that it hurts me to think
That we'll be like strangers the next time we meet
Cause I used to have everything that you need
And I need you so
There's a hole in my heart can you fix it?

There's a hole in my heart
Since you been gone!
Is this - L - O - V - E
Somebody tell me what's happening to me
Is this - L - I - F - E
Somebody tell me, just what's happening to me
Since you been gone
(A E B)
(there's a hole in my heart)
(there's a hole in my heart)
(there's a hole in my heart)
And all the answers, maybe we could
save them
(There's a hole in my heart
there's a hole in my heart)
This hole in my heart
This hole in my heart
This hole in my heart
Is this - L - O - V - E
Somebody tell me what's happening to me
Is this - L - I - F - E
Somebody tell me, just what's happening to me
(there's a hole in my heart can you fix it)
There's a hole in my heart since you've been gone
