

Lulu Silvério - Forgive Me

```
tom:
               G
           C
Hey
                      Am
I know it's been such a long time
                   Dm7 DmM
But I just wanted to say
      G7
That I miss you
     C
And I think
That you hate me for the things
           Dm7
That we went through
                        G7
        DmM
But I can sing and tell you I'm sorry
   C E7
So please, please
   Am
Forgive me
I didn't know what I was doing
My heart was loud and it was so confusing
   C E7
So please, please
  Am
Forgive me
    Fm
I'll sing this for you
So even though I know you won't come through
                C7M
I wanted to say I miss you
```

```
I miss you
     Dm7 DmM
 I miss you
                                                                                                                                                                                                                                               G7
And all the things that we used to do
 I've been feeling so sad
                                                                                                                                                                                                             Eb Dm7
 And I know that you're mad at me
                                                                                                     G7
  So please, forgive me
           C7M
 I can tell about my day
  I can make you feel okay
                             Dm7
 We can talk every day
                          G7
 Even watch anime
 So please, please
                             Am
  Forgive me
                                                                                                                                                                                                               Dm7 DmM
 I didn't know what I was doing
 My heart was loud and it was so confusing
                              C E7
  So please, please
                          Am
 Forgive me
                                             Fm
 I'll sing this for you % \left\{ 1,2,\ldots ,n\right\} =\left\{ 1,2,\ldots 
 So even though I know you won't come through
                                                                                                                                                              C7M
 I wanted to say I miss you
```
